Building African Women's & Youth Movements and Forming International Sisterhood

How do we Achieve the Unification of Africa?

We believe that the strategy of organizing organizations is the key to the unification of Africa. Our goal is to organize an African Women and Youth conference in every country in Africa in the next 5 years for the purpose of education and organization.

We want to locate, identify, and develop a relationship to all the women's organizations in Africa. In every country in Africa, we want to ask all the women's organizations to build an organization of women organizations whose purpose is the unification of Africa.

We want to locate, identify, and develop a relationship to all the youth organizations in Africa. In every country in Africa, we want to ask all the youth organizations to build an organization of youth organizations whose purpose is the unification of Africa.

We want to ask all the men to organize men into an organization whose purpose is the "Emancipation of Women." We will call that organization "Men for the Emancipation of Women and the Unification of Africa." This organization will be a part of the Women's Movement and under the leadership of organized women.
